

CERTIFICATE OF COMPLIANCE

This document certifies that the following styles (listed below) from the USA Workforce® Collection by Art-Craft Optical Co., Inc. satisfy the requirements of the *High Velocity Impact Spectacle Frame Test* and the *High Mass Impact Spectacle Frame Test* of the ANSI Z87.1-2010 standard, having been tested with polycarbonate plano lenses with thicknesses of 2.00mm (+0.20mm / -0.00mm).

WF672A, WF673A, WF674A, WF675, WF677, WF741, WF741F, WF744, WF745, WF815T, WF820SS, WF821SS, WF822-V1, WF824-V3, WF826SS, WF827SS, WF829, WF830SS, WF831SS, WF832SS, WF833SS, WF951SF, WF952SF, WF953SF, WF961FF, WF962FF, WF963FF

All of the frame styles listed above can be used as “Basic Impact Protectors” and/or as “High Impact Protectors”, so long as the component lenses comply with the ANSI Z87.1-2010 standard for removable non plano lenses.

Similarly, all frames released by ArtCraft subsequent to the issuance of this certificate will comply with the ANSI Z87.1-2010 standard for “Basic Impact Protectors” and “High Impact Protectors.”

For styles introduced prior to 2010, compliance with the ANSI Z87.1-2010 standard was achieved without the introduction of new materials or the alteration of existing designs.

A handwritten signature in black ink, appearing to read 'C. Thomas Eagle', is written over a horizontal line.
