

CERTIFICATE OF COMPLIANCE

This document certifies that the following styles (listed below) from the USA Workforce® Collection by Art-Craft Optical Co., Inc. satisfy the requirements of the *High Velocity Impact Spectacle Frame Test* and the *High Mass Impact Spectacle Frame Test* of the ANSI Z87.1-2003 standard, having been tested with polycarbonate plano lenses with thicknesses of 2.00mm (+0.20mm/ 0.00mm).

WF671, WF672, WF672A, WF673, WF673A, WF674, WF674A, WF675, WF740, WF740F, WF741, WF741F, WF743, WF744, WF745, WF801, WF802, WF805, WF806, WF807, WF808, WF809, WF810, WF811T, WF812T, WF814, WF815T, WF816, WF819T, WF820SS, WF821SS, WF822-V1, WF823-V2, WF824-V3, WF825-V4, WF826SS, WF827SS, WF829, WF830SS, WF831SS

Compliance with the new ANSI Z87.1-2003 standard was achieved without the introduction of new materials or the alteration of any current designs.

All of the frame styles listed above can be used as “Basic Impact Protectors” and/or as “High Impact Protectors” if their component lenses comply with the ANSI Z87.1-2003 standard for removable non plano lenses.

Similarly, all frames released by ArtCraft subsequent to the issuance of this certificate will comply with the ANSI Z87.1-2003 standard for “Basic Impact Protectors” and “High Impact Protectors.”

A handwritten signature in black ink, reading 'C. Thomas Eagle', is written over a horizontal line.
